

NAB is a powerful blend of detergents and degreasing agents. It has unique abilities as a fast and effective emulsifier of soap scum deposits making it an exceptional bathroom cleaner. NAB has no harsh caustics or acids that can burn the skin or harm washable surfaces or fixtures. It rinses freely leaving behind a clean surface and pleasant scent.

This non-acid bathroom fixture and hard surface cleaner can be used everyday without damaging metal plating or plumbing fixtures.

First aid: if swallowed, drink plenty of water followed by lemon juice, grapefruit juice, or diluted vinegar. See a physician. In case of contact with eyes, flush with plenty of water for 15 minutes and then with a 5% boric acid solution. If irritation develops, see a physician. If contact causes skin irritation, wash area thoroughly with water.

Danger: Causes severe skin burns & eye damage

DIRECTIONS

Mop, spray or wipe on surface to be cleaned. Allow contact time and then remove soils with a sponge, rag, mop or squeegee. Always rinse thoroughly especially on walking surfaces and in tub and shower areas to avoid slippery conditions. Dilutions may vary depending on water temperature, hardness, contact time, agitation and amount and type of soil.

LAVATORIES & TUBS: Dilute cleaner with two (2) parts water and apply with cloth or swab mop. Allow a few minutes for cleaner to act. Rinse with clean water.

SHOWER STALLS, CERAMIC OR TERRA COTTA TILE FLOORS: Dilute cleaner with two (2) parts water and apply with swab mop. Apply to floors with a cotton string mop. Allow a few minutes for cleaner to act. Rinse with clean water.
